"Elegance" terrace door

# GARDEN

Narrow stile for garden and classic terrace door

Contemporary moulding

## Let the outside in

Unlike sliding doors, the classic designs of Elegance Garden and Terrace doors allow them to open wide and let in a full measure of fresh air.

Door lights with easy-to-clean fixed grills are a smart option.

Glass panels – so many great good looks

Aluminum-clad exterior wood grills or leaded glass gives your door the divided-light look. Choose your favorite glass treatment: clear, tinted, frosted, stippled or patterned. Or incorporate custom-etched, sandblasted or "stained glass" panels.

For top energy efficiency, we suggest triple glazing, Low-E glass and argon gas fills.
